

Experience

Hey,

I've used your skincare products for over a six month now, and it worked wonders on my skin problems, especially the moisturiser and cleanser. My audience also love hearing about your skincare products, and I know many of them love your products, too.

I've worked before with brands like ABC and HIJK. With ABC, I drove a 30% click through rate with \$300 in product sales in 1 week. Over 6 months, they sold \$2,000 in ABC rise.

My blog, sees over 10,000 page views/month with an incredibly high 35% engagement rate. My Instagram also sees about a 25% engagement rate. With this month ending soon, I'd love to share some of your products with my readers.

I would love to partner with you guys in some way.

Thanks,
