

To majesty's passport office,

I am writing this letter as a cover letter for me sending some very important documents by post. I am sending these documents to help support my application for my passport. You will find inside one months' worth of bank statements with the proof of my financial status and proof of address. Also inside you will find my original birth certificate and national insurance number.

I do hope that this will be enough supporting documents to get me my passport. And if you need anything more please inform me as soon as possible so that I can send it out as well fast.

Yours sincerely,

Mr. Jason Taylor
